ELMOON

AUTO LIQUIDITY DEFLATIONARY TOKEN

INTRODUCTION

ELMOON is a community driven auto liquidity deflationary token designed after the luna attack, which led to Celsius, Blockfi, Voyager etc to go bankrupt. We all now its pure corruption so lets get our money back.Elmoon & TheBTCFund concepts were born with 1 thing in mind, fairness.

No Rug Pulls , No Metaverse's , No Dev Tokens , No Pumps , No Dumps , Pure Gain Through Social Awareness

With the profit we will try to hire a very low quality chinese rocket and send it to the moon with Elon Musk, Do Kwon, Alex Mashinsky, Sam Bankman/Fred, Vladimir Putin and Tyler/Cameron Winklevoss.

Lets send them on a one way trip with a ledger full of FTX, GUSD and CELSIUS Tokens to the Moon to spend on moonrocks.

FAIR LAUNCH

ELMOON is a fair launch following these steps :

* No bonus, no ICO, just a fair launch

* The liquidity pool is locked until Dec 31st 2023

* The longer you HODL the more tokens you will receive

* 5 Exchange Listings by Nov 1st

* Weekly airdrop bonuses including NFT's

TOKEN STRUCTURE

* Rewards : 1% is redistributed to all existing holders

* Automatic Liquidty Pool : 6% is added to liquidity pool

* Expansion Fund : 2% for future Exchange listings/Marketing/Rocket Fuel

OUR COMMUNITY

Our discord, telegram, and twitter communities are growing with the power of memenomics, while our tokenomics are sound and our development team highly experienced. As a community token, our rollout is agile and we will take input from the community on how to best utilize the designated marketing wallet
